YEP!

The idea for YEP MED was set in motion in 2019 within the framework of the training and employment working group of the MEDPorts Association, led by the Port of Barcelona, which brought together large ports in the Mediterranean basin. It gained its seeds from the current realities facing the actors, which was that ports, which are linked to international trade, environment and sustainability, digitalisation, port logistics and transport networks, were one of the main focuses of job creation in the sectors of the Blue Economy..

[Digital Literacy key in training the new working generation](#)

There is no doubt that the year 2020 has cemented itself in the history books. With social upheaval, extreme weather patterns and a global pandemic, the effects of the year will continue to be felt throughout the second decade of the 21st century. But what kind of consequences will be felt in the labour market?
